

RFL-ABP-2000/2000

ABP Fiber Laser
Data sheet V 1.0

Features

- » Field of application: Battery welding
- » Adjustable Beam Profile
- » High speed welding process
- » Excellent welding result
- » Optimised for the battery production

TECHNICAL SPECIFICATIONS

Central wavelength	1075-1085 nm	Power instability	<±1.5 %
Center emission power	2000 W	BPP	< 2.2 mm.mrad @ 50µm
Ring emission power	2000 W	Control mode	Serial, AD
Emission power	4000 W	Dimensions	670x990x1160 mm
Fiber length	20 m (modifiable)	Weight	<250 kg
Operating Voltage	AC 340-420 V	Operating temperature	10 - 40 °C
Center fiber core	50-100 µm	Power range	10-100 %
Ring fiber core	150-300 µm	Humidity	< 70 %
Optic	IHQB	Cooling Methode	Water
