

RFL-P1000-H

High Power Pulsed Fiber Laser
Data sheet V 1.0

Features

- » Field of application: cleaning
- » Adjustable frequency
- » High single pulse energy
- » Excellent beam quality
- » Competitive price

TECHNICAL SPECIFICATIONS

Central wavelength	1075-1085 nm	Fiber core	400um (modifiable)
Output power	1000W@10-100kHz/100ns	Optical output	QBH
Output power	1000W@15-100kHz/70ns	Control mode	Ethernet, RS-232, AD
Output power	1000W@25-100kHz/50ns	Dimensions	698x845x1132 mm
Output power	1000W@75-100kHz/50ns	Weight	<200 kg
Frequency	10-100 kHz	Operating temperature	10 - 40 °C
Pulse width	20-100 ns	Power range	10-100 %
Single pulse energy	100 mJ @ 10 kHz	Humidity	< 70 %
BPP	<45 mm.mrad	Cooling Methode	Water

RFL-P1000-H
